FALL 1962

HAMBURG, IOWA

INCORPORATED

New Imperials, The Lily Sensation of the Century

Imperial Gold

In announcing the "Greatest Lilies Ever Grown", we firmly believe they are the finest Lilies we have ever seen in our 43 years in the nursery business. Bold, flaring, fragrant flowers, often reaching 8 to 10 inches across, are borne like monarchs on strong stems 3 to 5 feet tall in July-August. Mr. Jan de Graaff considers them his finest creations. Vigorous, hardy, healthy, Auratum-Rubrum hybrid strains, not finicky but come up year after year with more and still more flowers. Far superior to Jillian Wallace and other similar crosses. These new, superior Lilies should sell up to \$10.00 each but continuing our policy of bringing the newest and finest at lowest possible prices we offer all 3 of these fabulous Lilies for only \$6.75, actually less than you would expect to pay for just one bulb. These are large bulbs, 6 to 7 inches around, guaranteed to bloom for you next summer and if you are not thrilled by the marvelous blooms you may select from our catalog whatever you wish equal to the amount you paid for the Lilies. We suggest early orders because at this special price our limited stock should sell out early. The bulbs are ready for shipment around middle of October. POSTPAID.

Fresh From Your Own Garden

NEW, IMPROVED *Blueberries*

These 3 new, improved blueberries are far superior to common varieties. They have larger fruit, bear more profusely, better flavor and the bushes are so attractive you can plant them in your front yard with regular shrubs. The white flowers are lovely in the spring followed by the beautiful blue, luscious fruit. The waxy rich green foliage colors red in the fall. Wonderful for eating fresh, for pies and freezing. This is an all season collection that starts ripening in late June continuing through early August. Plant in a cluster, 4 to 6 feet apart. Branched 3-year old plants, almost 2 feet tall that will bear next year after planting. Blueberries prefer an acid soil. You can make your soil acid by mixing peat moss or a handful or two of common sulphur with your soil when planting.

FH 7 Rosa Multiflora Japonica—The conservation people recommend this for a living hedge where you have plenty of room, for erosion control and an excellent wild life refuge. However, we do not advise using it on small city lots because when not trimmed it makes a bushy, thorny plant 6 to 8 feet tall and almost as wide. Has white flowers in spring followed by red fruits which the birds like. Hardy up to central Iowa. We have seen many fine untrimmed hedges on farms. Plant 18 to 24 inches apart.

Not only adds beauty, it also protects your yard especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick, dense hedge, without thorns, right down to the ground. Requires trimming only twice during the summer. Leaves are rich, dark green and hang on until very late fall. Plant 1 foot apart.

CHINESE ELM

FH 1 Chinese Elm—Is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in the fall. You can trim to any desired height from 3 to 10 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all of the top, leaving only 5 to 6 inches above the ground. This will make a bushier, more dense hedge. Plant 8 inches apart.

SHRUB of this Century!

AT NEW LOWER PRICES

FS 150 We believe this to be the finest red-flowering shrub in America. In May-June every plant is simply covered from top to bottom with hundreds and hundreds of lovely rosy-red flowers. They are trumpet-shaped, 1 to 1¼ inches across. After this first big display, there are some scattering blooms throughout the season. If you cut off sprays of flowers and use them for bouquets, the plant will flower even more freely than if you left them on.

At Hamburg, the Cardinal Shrub has withstood 15 below zero without injury. It is so easy to grow, not particular as to soil. Thrives in full sun or part shade. It makes a shapely bush 5 to 6 feet tall with excellent foliage. Used as an untrimmed hedge, it will be the sensation of your neighborhood.

Look over your yard, whether large or small. You will find a spot where it will help make your home more beautiful. Plants set out this fall will bloom next spring. We ship them to you **POSTPAID**, trimmed ready for planting, at the proper planting time for your locality.

ROYAL PURPLE SMOKE TREE

... the most striking shrub
we have ever seen!

FS 40 (*Rhus Cotinus Atropurpurea*, Royal Purple). From the moment the first leaf unfurls in early springtime until late autumn, here is an amazing shrub to make that sunny spot in your yard GLOW with rich purple color!
